## Visualize, Communicate & Inspire.

Your hidden line views rendered in Adobe Photoshop.

Send me your Sketch-up file or any 2D hidden-line Perspective.

I will send you a named & layered Photoshop file in return.

### I will dedicate myself to your vision.

Your ideas will be rendered with utmost regard – on budget, on time, on target. As digital artist with over 25 years experience, I offer you time-tested professionalism, personal attention and award winning quality.

### How to proceed...

Contact me at dane@daneillustrator.com and let me know the scope of your project. I will respond promptly with a price quote for the rendering. Fees are quoted on a per-project basis. Typical rendering takes 8-12 hours. 1-3 business days.

Upon agreement of fees, you send me your hidden line view, Sketch-Up File, or 2D-perspective drawings.

I render your chosen view in Adobe Photoshop®, then fine-tune the rendering to your satisfaction. Materials and colors can be adjusted to your requirements.

After the work is complete, I will supply you with the high resolution, named and layered Photoshop file.
